Official Diary
Acting DD/I

Wednesday, 12 November 1952

1. At the General's morning meeting, obtained his consent to cancel the IAC meeting, there being nothing to bring before it but the revised SIE-5, which all concerned feel can well wait a week.

2. Also at the morning meeting advised DCI of the meeting of the Board of National Estimates and its consensus that NIE-40 should be dropped as an Estimate because its assumptions are anomalous, its time limitation nullifies its use for long-range planning, and because circulation of EIC contributions should be adequate to service it, etc. DCI expressed no disagreement.

25X1A5a1 3. Asked DCI whether [REDACTED] had disclosed anything of interest to the DD/I area. He indicated not, but said he had a lot of detailed information which could be obtained by O/RR or [REDACTED]. I suggested that we pump [REDACTED], our consultant, first, and he concurred. Later in the day, a meeting to debrief [REDACTED] was set up for Friday, 21 November. 25X1A2g

25X1A5a1 4. ADVISED DCI and D/DCI of the transmission of the Special Estimate on Austrian Security, coordinated only with G-2, to Secretary of Defense. D/DCI expressed some surprise at the optimistic conclusions of the Estimate, but DCI expressed no objection to forwarding it to Sec/Def.

25X6A 5. Called DCI's attention to cable [REDACTED] stating that an unknown source (unknown because pseudonym unknown to anyone in this part of the Agency) 25X6A had predicted that [REDACTED] 25X6A

25X1A9a steps to have this evaluated by [REDACTED] O/CI, et al. DCI said, "Ouch." Taking

25X1X7 6. Called General Porter's Office and made strong request that the papers resulting from [REDACTED] Conference on Military Action in Asia be made available to CIA. His Captain Herbert (?) agreed that we had a legitimate interest and indicated the request would be honored.

7. Attended PRC meeting -- a complete and inexcusable waste of time from DD/I's point of view -- made my position very clear that the procedure should be radically revised so that DD/I would not have to twiddle his thumbs and then pass on details of measures and proposals he could not possibly evaluate on the basis of information furnished. D/DCI, DD/A and DD/P all agreed that a complete re-vamping of the procedure should be accomplished promptly.

25X1A9a 8. Conferred with [REDACTED] on the future use of the Harvard Advance Management Program for our training. He had just been interrogated by Col. Baird in OTR.

25X1A9a 9. Conferred with [REDACTED] on the Handling of the special sensitive operation. Directed him to be guided on all questions by DD/P.

Official Diary

25X1A9a

10. Conferred with [REDACTED] of Personnel on recruiting problems of O/RR, particularly the position of Chief of Research, GS-17.

25X1X7

25X1A9a

12. Conferred with [REDACTED] on a proposed draft of functions for the Intelligence Career Officer Selection Panel. Sent [REDACTED] to the meeting with 25X1A9a flat instructions to represent the DD/I Offices as unalterably opposed to the present draft, especially paragraph 3 b. which excludes, from the review procedures, any negative action taken with respect to an applicant by Security, Personnel or the Medical Office. [REDACTED] later reported that DD/A recommended the proposal for further study.

25X1A9a

13. Conferred with [REDACTED] regarding the distribution of the National Intelligence Digest. Also suggested to him that the recipients of the Digest be furnished with a copy of Sherman Kent's diagrammatic explanation of modifying words, such as "probably," almost certain," etc.

25X1A9a

14. Discussed with [REDACTED] the advisability of a Special Estimate on the Yugoslavian Economic Situation. I expressed some skepticism and he undertook to produce concrete reasons why such an effort should be laid on.

15. Called Col. Whipple, G-2, to protest the failure of G-2 to live up to the promises made by Whipple at a meeting in August, attended by DD/I and most of the IADs. Specifically called to his attention two requests for visits that had been either rejected or dithered around for months. He promised action by himself or Col. Cloverdale, to remedy the matter. I indicated that he better had clear this thing up or I would present the matter to General Partridge.

16. O/CI CIR for 7 November contained a rather alarming piece on the deterioration of political stability in the Punjab. Sought opinions from O/NE and NEA and was assured that the picture was accurate as to facts but over-drawn as to portent. Hence, dropped embryonic thoughts of suggesting an IAC estimate.

17. Discussed with Mr. Sheldon, Tripartite Conference at Saigon and action to be taken as a result of LEB's talk with Captain Layton and cabled report thereon. Sheldon and [REDACTED] had studied all the relevant documents, were in touch with FI and, upon receipt of finalized agenda, would prepare the necessary briefs.

18. Also discussed special sensitive material from New York City: Sheldon convinced this stuff is not worth the risks we are incurring in getting it.
25X1A9a However, [redacted] disagrees. I said I would call his opinion to Wisner's attention.

19. Re NSCID No. 9 Sheldon gave me an interim report on negotiations with the FBI over their differences. FBI is certainly taking a regrettable and childish attitude. (See memo for the record dated 12 November.)

25X1A5a1 [redacted]

25X1A9a

21. Re Supergrade positions -- Agreed that slot now held by [redacted] objectively is worth only a GS-15, but that for morale purposes it would be highly undesirable to have it downgraded during his incumbency. I promised to fight for him on this.

25X1A5a1

22. [redacted] will be here Friday, 21 November, from 11:00 to 1:00; therefore agreed to postpone the usual Friday briefing until 1400 that day.
